Summary

Ambitious Computer Science graduate with a strong AI foundation, proven teamwork skills, and eagerness to apply technical knowledge to real-world projects.

Education

- **Sathyabama Institute of Science and Technology** **Chennai, India**
Bachelor of Engineering in Computer Science with Artificial Intelligence *May 2025*
CGPA: 7.94
- **LeTourneau University** **Texas, USA**
Study Abroad Program *Jan – May 2024*
- **St Antony's Public School** **Kerala, India**
Higher Secondary Education (CBSE) **2019- 2021**
 - 81.2%

Projects

- **Cyberbullying Detection System**
Proposed an approach to detect cyberbullying using machine learning techniques, specifically Naive Bayes and Random Forest classifiers.
- **Drowsiness Detection System**
Developed a real-time drowsiness detection system using computer vision and machine learning techniques to enhance driver safety.
- **Employee Management System**
The project aims to develop user-friendly Employee Management Software that streamlines HR processes, tracks performance, and improves efficiency for small and medium-sized companies.
- **Cardiac Arrhythmia Detection System**
Developed a CNN-based cardiac arrhythmia detection system using ECG signal analysis and machine learning techniques to classify abnormal heart rhythms with high accuracy.

Experience

Software Engineer Intern

Nest Digital STC

March 2026 – Present

- Developed interactive Power BI dashboards to monitor recruitment KPIs and hiring metrics
- Analyzed hiring funnel performance and weekly recruitment trends
- Prepared reports and data-driven insights for management and stakeholders
- Utilized Excel, SQL, and Power BI for data analysis, visualization, and reporting.

Internships and Certificates

• Artificial Intelligence

Completed an internship at Corizo in Artificial Intelligence, gaining hands-on experience in AI concepts, tools, and real-world problem solving from June to August 2023

- **IBM CLOUD ESSENTIALS V3**

Developed comprehensive knowledge of the IBM Cloud ecosystem, specializing in hybrid cloud deployment, DevOps toolchains, and AI integration through IBM Watson services.

- **Data Science**

Completed a Data Science internship at Techmindz, working on data preprocessing, exploratory data analysis, statistical analysis, and introductory machine learning techniques.

Technical Skills

- **Languages and DataBases:** Python, Pandas, Numpy, SQL, MySQL
- **Visualization Tools:** Tableau, Power BI
- **Other Skills:** Excel, Business Analysis, Data Analysis, Problem Solving, Dashboard Development
